

Aluminium Shutters

Specified by leading manufacturers of fire fighting vehicles worldwide, when only 100% reliability, strength and durability are enough.

- Easy operation
- Flocked side seals
- Pre-tensioned, lubricated efficient operator with simple adjustment
- Available in Mill, Anodised or powder coat finish

JR Industries specify only the highest quality components in the manufacture of Robinson shutters to deliver the following benefits:

- Ease and speed of assembly
- Total reliability
- Smooth rattle-free operation
- Effectively sealed against ingress of road dirt and water

- Combined track and side seal carrier optional
- Bottom seal as standard
- Durable interlocking nylon end shoes

Robinson, the smooth operator
